

MOORE

# EDUCATION SECTOR SERVICES

Your partner in financial  
and strategic success

# How we help in business

Increased corporate governance, accountability, funding requirements, financial management and risk management are just some of the demands faced by the education sector today.

As the principal, bursar, business manager or school board member, you need the right guidance and support to meet these changing demands.

Our education specialists provide timely and valuable assurance services in addition to strategic, financial and management advice that is both technically accurate, and tailored to your education organisation. Having worked with hundreds of schools and colleges across Australia, as well as local government bodies, our teams have a deep understanding of the complexities involved in managing organisations in the education and training sector.

## EXPERIENCE WITH

- Public and independent primary and secondary education organisations
- Early Childhood Education Centres
- University and Tertiary Education Institutions
- Department of Education and Training
- Vocational Education and Training (VET) Providers
- Registered Training Organisations (RTOs)
- Education Support Organisations
- Education Regulatory Bodies
- Education Associations and Professional Bodies

## HOW WE ASSIST

- Audit and Assurance tailored to the education sector
- Financial Report Audit and Review services
- Governance and Risk Advisory
- Business Advisory including budgets and cashflow forecasting
- Tax compliance, GST reviews and FBT returns
- Outsourced Bookkeeping and Payroll
- Performing a financial health check
- Reviewing and improving internal controls
- Outsourced CFO including salary packaging for principals

# Partnering with educators

We understand how important educators are when it comes to developing the next generation of accounting professionals and leaders.

We partner with educators and institutions to provide students with the opportunity to ask questions, learn about accounting as an industry and a career. Our team has extensive hands-on experience and will provide many insights to the day-to-day, real-world clients we work with. This gives students a deeper understanding of what they might expect in an accounting role.

Coming to you when needed, we can provide technical and soft skill sessions, covering:

- What accountants actually do in various service lines eg: audit, tax, corporate finance.
- A day in the life of an accountant.
- Career progression and opportunities.
- The difference in working at a Big-4, mid-tier or corporate role.

## OUR TEAM CAN PROVIDE:

- Guest speakers and host lecturers on topics such as, audit in the real world, specialised tax and accounting. We work with you to understand how we can support your curriculum guidelines.
- Information booths at in-house career days/ events, with representatives available to speak about accounting as a career.
- Mentorship, either facilitate or participate in programs for students.
- Structured Career Clinics. An opportunity for students to ask real questions about a career in professional services. Facilitated by our national team, this clinic also provides tips on CV building, networking and personal branding.
- Employment programs including work experience, internships and undergraduate positions, allowing students to experience an accounting firm and potential career without the commitment.
- Advice and insights to educators on the accounting industry through consultation with our partnership.

Our sessions are suitable for accounting, business and commerce students. We will share knowledge on accounting as a profession to equip students with the knowledge and answers they may have to make their career decisions.

## CONTACT US
