

## GRADUATE PROFILE

### JOHN ANDREATIDIS

**DEGREE:** Bachelor of Business Major in Accountancy, Minor in Forensic Accounting  
**COMPLETED:** 2020  
**GRADUATE YEAR:** February 2021

#### WHY MOORE AUSTRALIA?

I initially choose Moore Australia because what the management and HR teams had to say during the interview process felt genuine.

I stay because it was not just an initial feeling, but the people at Moore Australia truly are genuine.

#### WHAT POSITION DO YOU HOLD NOW AND WHAT IS YOUR FAVOURITE THING ABOUT YOUR ROLE TODAY?

I am in the unique position of working across multiple service lines and teams. I am an accountant in Business Advisory and I work with our agribusiness team, and an analyst in the Transfer Pricing team.

My favourite part of business advisory is increasing my knowledge and experience in tax and being an accountant. Working within the agribusiness sector, the unique set of challenges our clients face every day means I'm learning and improving the lives of our clients through our service.

Our team is spread across the city and regional offices and the connection between the locations allows me to travel for work, which I thoroughly enjoy.

Transfer Pricing is a very unique service. It has its niche in the business landscape and in this role I am not an accountant but an analyst. I like that I learn something new every day and interact with clients from around the world like New Zealand, UK, USA and beyond.

#### WHAT INFLUENCE HAS THE TRAINING PROVIDED BY MOORE HAD ON YOUR CAREER?

During high school and university I did not know what job I wanted to do. Accountancy came out of a hat essentially and I was just going along with it. After my training and time at Moore Australia, accountancy is truly what I want to do. I enjoy calculating taxable income, reconciling GST and reading the federal budget. I could not have come to this decision without Moore, my mentor or my team.

#### ANY ADVICE FOR A POTENTIAL NEW GRAD?

Be the person who says yes to every task, not the one who does not give it a go. This allows you to partake in a variety of tasks and meet new people – whether that be in colleagues, clients or other Moore Australia network members.

This also lets you figure out what work you do like and what you do not. You do not have to say yes to everything forever, but if you do to start and continue to mostly say yes to tasks, you might be the first person your manager thinks of when they want to allocate an exciting task to someone.
